Committed to sustainability

North East Workspace are strongly committed to minimising our environmental impact, continuously reviewing how to reduce our footprint. For example, our sites:

- 100% of energy generated through our own, on-site solar panels
- Achieve 85% recycling of waste
- Offset carbon use by planting trees in our own woodland

Testimonials

"As a long term tenant of North East Workspace I have found them to be extremely supportive in helping me establish and grow my business."

Ash Zahid, Durham Businesswear

"From setting up our first offices to expanding into bigger facilities they were there to help. In business, every supplier can have an effect on how you operate. Having a good landlord makes this easier and nicer."

Steve Bainbridge, Beatsuite
